Education

Bowling Green State University — Bowling Green, OH
M.S. in Computer Science, GPA: 4.00/4.00 — *Aug. 2024 - Aug. 2026*

Bowling Green State University — Bowling Green, OH
B.S. in Computer Science, GPA: 4.00/4.00 — *Jan. 2021 - Apr. 2024*

Experience

Software Engineer — Jul. 2026 - Present
Actual Reality Technologies — *Perrysburg, OH*

- Deployed a LiteLLM AI model gateway for policy-controlled model routing, adding intelligent routing tiers, guardrails, Langfuse tracing, Slack alerts, CI/CD gates, and 44 adversarial test fixtures.
- Built an automated validation gate runner with Node.js and headless Chrome (Playwright) evaluating multi-turn LLM responses, tool calls, and citations across 41+ test cases.
- Revamped the customer portal end-to-end across 1,476 commits, delivering two-way Plane ticket sync, retainer tracking, remote MCP tools, and multi-tenant auth in Next.js 15 and Firebase.

Artificial Intelligence & Computer Science Intern — May 2026 - Jul. 2026
SmartSolve Industries — *Bowling Green, OH*

- Deployed role-specific AI agents for employee-requested workflows and converted tool audits into scoped projects, helping operations and executive leaders prioritize internal AI investments.
- Architected a full-stack onboarding tracker with Next.js, TypeScript, PostgreSQL, Drizzle ORM, SSO, and auth middleware, replacing memory-based HR follow-up with secure new-hire handoff tracking.
- Built a cross-platform Docker devcontainer for WSL2 and Colima, isolating AI-assisted development workflows; participated in Scrum ceremonies and CI/CD pipeline maintenance.

Data Engineering Intern — May 2025 - Aug. 2025
American Association of Insurance Services — *Lisle, IL*

- Automated a weekly billing process with Python, PySpark, and AWS Glue, processing 20+ TB of production insurance data for 700+ member companies.
- Architected a 160+ table MDM migration by profiling MySQL, Oracle, and Impala sources with Python, Pandas, SQL, and JDBC, standardizing legacy data into 25 domains using domain-driven design principles.
- Modernized 160+ legacy Pentaho jobs into AWS Glue ETL workflows and partitioned S3 pipelines for Semarchy MDM, reducing job sprawl while maintaining 24-hour data latency.

Software Engineering Intern — May 2023 - May 2024
American Association of Insurance Services — *Lisle, IL*

- Engineered Python/JSON automation generating 1,000+ production SQL tables and consolidated views across 10+ insurance lines, accelerating data standardization and reporting.
- Implemented RBAC/JWT in a React/Node.js modernization with role-specific controls for 110 internal users; automated AWS Lambda PII tokenization with hashlib/boto3 for secure downstream processing.

Software Engineering Intern — May 2022 - Aug. 2022
Alliance for Paired Kidney Donation — *Toledo, OH*

- Secured AWS-hosted Lucee/CFML match-run workflows with CSRF protection, IP-aware audit logging, protected access-denied routing, and crash fixes for safer transplant operations serving clinical users.

Projects

HealthTrend - Healthcare Streaming Pipeline — Docker, Apache NiFi, Kafka, HDFS, Spark, PySpark

- Built a Dockerized healthcare data pipeline routing CSV patient records into HDFS, streaming JSON health events through Kafka, and processing both with Spark/PySpark for analytics.

Diff-Grounded PR Description Generation — Python, OpenAI API, GitHub API

- Developed an ICSME-published LLM pipeline turning commits, diffs, and repo metadata into evidence-grounded PR descriptions, reducing reviewer effort across 1,450 PRs.

Technical Skills

Languages & Frameworks: Python, TypeScript/JavaScript, Swift, SQL, Java, C++, C, React, Next.js, Angular, Node.js, Express, REST APIs, Firebase

AI, Data & Cloud: LiteLLM, AI/model gateways, Model Context Protocol (MCP), guardrails, Langfuse, OpenAI API, Gemini API, Mistral AI, LangChain, RAG, LLM evaluation, PostgreSQL, MySQL, MongoDB, AWS Glue, S3, Lambda, IAM, DynamoDB, PySpark, Kafka, NiFi, Docker

Security, Testing & DevOps: Vercel, Vitest, Jest, Playwright, Testing Library, Docker, Git, GitHub Actions, Linux, SSO, JWT, RBAC, Auth0, CSRF protection, audit logging, PII tokenization, Codex, Claude Code, Scrum/Agile

Domains: Insurance data systems, Healthcare workflow software, Consumer data products, Applied AI/ML systems, Systems programming
