PROFESSIONAL SUMMARY

Software engineer aligned with Founding Full-stack / Product Engineer responsibilities across React/Next.js, TypeScript, Python, backend API routes, SQL data flows, AI workflows, and job-discovery automation.

EDUCATION

Bowling Green State University

M.S. in Computer Science, GPA: 4.00/4.00

Bowling Green, OH

Aug. 2024 – Aug. 2026

Bowling Green State University

B.S. in Computer Science, GPA: 4.00/4.00

Bowling Green, OH

Jan. 2021 – Apr. 2024

EXPERIENCE

Artificial Intelligence & Computer Science Intern

May 2026 – Present

SmartSolve Industries

Bowling Green, OH

- Architected a Next.js onboarding tracker with TypeScript, PostgreSQL, Drizzle ORM, SSO, and auth middleware to centralize new-hire workflows and protect sensitive employee data.
- Scoped an AI-enabled QMS dependency register by modeling quality-document relationships and translating ambiguous operational needs into a reviewable implementation plan.
- Built a Docker devcontainer for WSL2 and Colima, standardizing setup while isolating AI-assisted development workflows around proprietary source code.

Data Engineering Intern

May 2025 – Aug. 2025

American Association of Insurance Services

Lisle, IL

- Automated a manual SQL billing workflow with Python, PySpark, and AWS Glue, processing 20+ TB of production insurance data to calculate charges for 700+ member companies.
- Profiled 160+ MySQL, Oracle, and Impala tables with Python, Pandas, SQL, and JDBC, mapping fragmented source-system relationships into a 25-domain taxonomy for migration planning.
- Built reverse-ETL and data-validation workflows with custom AWS IAM roles, supporting controlled self-service data access and 24-hour data latency.

Software Engineering Intern

May 2023 – May 2024

American Association of Insurance Services

Lisle, IL

- Engineered Python/JSON automation that generated 1,000+ production SQL tables across MySQL, Oracle, PostgreSQL, and 10+ insurance lines.
- Implemented RBAC and JWT patterns in a React/Node.js modernization, replacing broad internal access with role-specific controls for about 110 users.
- Automated AWS Lambda validation that tokenized PII with hashlib/boto3 and delivered structured JSON to S3, strengthening secure downstream data processing.

Software Engineering Intern

May 2022 – Aug. 2022

Alliance for Paired Kidney Donation

Toledo, OH

- Modernized an AWS-hosted Lucee/CFML healthcare workflow platform with HTML5 inputs, JavaScript/CSS fallbacks, reusable modal/tab components, and graceful degradation.
- Improved clinical workflow reliability with anti-CSRF protection, IP-aware audit logging, access routing, Matchgrid import ordering, MFI upload fixes, and duplicate-antigen crash handling.

PROJECTS

Career Ops - Job Discovery and Application Automation

Python, Ashby, Greenhouse, Lever

- Built a Python career-operations system that ingests structured postings from Greenhouse, Lever, Ashby, and SmartRecruiters, filters early-career roles, and writes CSV/Markdown review outputs.
- Implemented application-package validation for one-page PDFs, text extraction, alignment evidence, cover-letter artifacts, and generated-build cleanup across role-specific submissions.

Fix-It-Flow - Voice-First Repair PWA

Next.js, TypeScript, Gemini, DynamoDB

- Built typed Next.js API routes and AWS-backed session persistence for camera inspection turns, repair sessions, structured findings, safety warnings, and voice-controlled repair steps.

Diff-Grounded PR Description Generation

Python, OpenAI API, GitHub API

- Built an ICSME-published LLM pipeline that generated pull request descriptions from commits, diffs, linked issues, and repository metadata, then evaluated outputs against code-change evidence.

TECHNICAL SKILLS

Product & Web: TypeScript/JavaScript, React, Next.js, Node.js, Express, REST APIs, HTML5, CSS, responsive UI, PWA

Data, AI & Cloud: Python, SQL, PySpark, PostgreSQL, MySQL, Oracle, MongoDB, AWS Glue, S3, Lambda, IAM, DynamoDB, OpenAI API, Gemini API, RAG, LLM evaluation

Systems & Tools: C++, Docker, Git, Linux, WSL2, Colima, JSON, CSV, Markdown, LaTeX, pdflatex, pdftotext, SSO, JWT, RBAC
