PROFESSIONAL SUMMARY

Software engineer aligned with Security Operations Engineer responsibilities across cybersecurity labs, SQL, AWS, SSO, JWT, RBAC, audit logging, access control, and Python/TypeScript/C++ systems.

EDUCATION

Bowling Green State University

M.S. in Computer Science, GPA: 4.00/4.00

Bowling Green, OH

Aug. 2024 – Aug. 2026

Bowling Green State University

B.S. in Computer Science, GPA: 4.00/4.00

Bowling Green, OH

Jan. 2021 – Apr. 2024

EXPERIENCE

Artificial Intelligence & Computer Science Intern

May 2026 – Present

SmartSolve Industries

Bowling Green, OH

- Architected a Next.js onboarding tracker with TypeScript, PostgreSQL, Drizzle ORM, SSO, and auth middleware to centralize new-hire workflows and protect sensitive employee data.
- Built a Docker devcontainer for WSL2 and Colima, standardizing setup while isolating AI-assisted development workflows around proprietary source code.
- Scoped a QMS dependency register by modeling document relationships and translating ambiguous operational needs into a reviewable implementation plan.

Graduate Research Assistant I

Aug. 2024 – May 2026

Bowling Green State University

Bowling Green, OH

- Developed cybersecurity lab and presentation material across cryptography, secure key management, phishing, password security, email authentication, email forensics, ethical hacking, and web application security.
- Built hands-on training content for OSINT, vulnerability scanning, packet analysis, credential attacks, Burp Suite, OWASP ZAP, Wireshark, Nmap, Metasploit, and controlled exploit-development concepts.
- Led 10 undergraduate students in organizing a CyberCamp using CyberGuardian modules, phishing demos, password-security exercises, cryptography activities, and cyber escape-room material.

Data Engineering Intern

May 2025 – Aug. 2025

American Association of Insurance Services

Lisle, IL

- Automated a manual SQL billing workflow with Python, PySpark, and AWS Glue, processing 20+ TB of production insurance data to calculate charges for 700+ member companies.
- Profiled 160+ MySQL, Oracle, and Impala tables with Python, Pandas, SQL, and JDBC, mapping source-system relationships into a 25-domain taxonomy for migration planning.
- Built reverse-ETL and data-validation workflows with custom AWS IAM roles, supporting controlled self-service data access and 24-hour data latency.

Software Engineering Intern

May 2023 – May 2024

American Association of Insurance Services

Lisle, IL

- Implemented RBAC and JWT patterns in a React/Node.js modernization, replacing broad internal access with role-specific controls for about 110 users.
- Automated AWS Lambda validation that tokenized PII with hashlib/boto3 and delivered structured JSON to S3, strengthening secure downstream data processing.
- Engineered Python/JSON automation that generated 1,000+ production SQL tables across MySQL, Oracle, PostgreSQL, and 10+ insurance lines.

Software Engineering Intern

May 2022 – Aug. 2022

Alliance for Paired Kidney Donation

Toledo, OH

- Secured an AWS-hosted Lucee/CFML healthcare workflow platform with anti-CSRF protection, IP-aware audit logging, and protected access-denied/404 routing across internal forms.
- Improved clinical workflow reliability by fixing Matchgrid import ordering, MFI upload paths, duplicate-antigen page crashes, logistics defaults, and reusable modal/tab screens.

PROJECTS

Fix-It-Flow - Voice-First Repair PWA

Next.js, TypeScript, DynamoDB

- Built typed Next.js API routes and AWS-backed session persistence for inspection turns, repair sessions, findings, frames, safety warnings, and voice-controlled repair steps.

TECHNICAL SKILLS

Security Operations: SSO, JWT, RBAC, auth middleware, anti-CSRF, audit logging, access-denied workflows, PII tokenization, phishing, email forensics, password security

Cloud, Data & Systems: AWS Glue, S3, Lambda, IAM, DynamoDB, PostgreSQL, MySQL, Oracle, SQL, PySpark, Docker, Linux, Git

Languages & Tools: Python, TypeScript/JavaScript, C++, Node.js, React, Next.js, Pandas, hashlib, boto3, Nmap, Wireshark, Burp Suite, OWASP ZAP
